

Maxon Marine Carbon AGM Series Maxon Batteries

What is a Maxon AGM heavy duty battery?

The Maxon AGM Heavy Duty batteries are a genuine deep cycle battery designed for frequent discharging while providing high capacity and long cycle life. They can be discharged with a higher current than that of standard AGM batteries. Suitable for all industrial, UPS, solar energy, marine, 4WD, and standby applications.

What types of batteries does Maxon offer?

Maxon's specialization encompasses a diverse range of battery types, including AGM, Hybrid AGM, Carbon Gel, Lead Carbon, and Lithium Iron Phosphate batteries, making it easy to find the perfect power source for your unique application needs.

Are Maxon AGM drop-in batteries good?

The lightweight AGM drop-in replacement batteries are suitable for caravan, camping, marine, mobility and all deep cycle application. The Maxon AGM Heavy Duty batteries are a genuine deep cycle battery designed for frequent discharging while providing high capacity and long cycle life.

What is a Maxon endurance battery?

Maxon's Endurance batteries redefine high-capacity performance, ensuring a consistent power supply even during frequent cycles, making them reliable for all your energy needs. Designed to withstand vibrations, these batteries are the go-to option for demanding environments, making them ideal for industrial and marine applications.

Does Maxon offer a warranty on AGM batteries?

The Heavy Duty AGM Series dual-purpose batteries come with a private use genuine two-year replacement warranty by Maxon Batteries, an Australian family-owned business. This warranty is back up by a network of local stockists and can be claimed without hassles at your nearest store. No need to contact the national office and wait for days or weeks.

What makes Maxon's endurance hybrid batteries different from AGM batteries?

The innovative combination of thick plate construction, Envionik Sio2 Gel additive and advanced AGM separators empowers these batteries to handle deeper discharges and higher currents, surpassing the capabilities of AGM batteries. Maxon's Endurance Hybrid batteries can be discharged higher with increased cycle life over their AGM counterparts.

The Maxon's AGM Heavy Duty Series batteries with its thick plate design and advanced AGM separators is a true deep cycle battery designed for frequent discharging while providing high capacity and long cycle life. They have the ...

Maxon Marine Carbon AGM Series Maxon Batteries

Suitable for all industrial, UPS, solar energy, marine, 4WD, and standby applications. The Maxon's AGM Heavy Duty Series batteries with its thick plate design and advanced AGM separators is a true deep cycle battery designed ...
