

What is a solar OPzV battery?

Sealed GEL battery, no water topping up requirements through the entire lifetime. Product variants available for both vertical and horizontal placement. Sunlight OPzV range is an advanced lead-acid battery series for energy storage systems. The ideal solution for stand-by applications requiring high levels of safety and reliability.

What is sunlight OPzV?

A premium energy solution for critical stand-by applications. Exceeding DIN standards. Sealed GEL battery, no water topping up requirements through the entire lifetime. Product variants available for both vertical and horizontal placement. Sunlight OPzV range is an advanced lead-acid battery series for energy storage systems.

What is a powersafe OPzV battery?

The PowerSafe OPzV range of valve regulated lead-acid batteries uses a proven combination of gel and tubular technologies to offer a very high level of reliability. These single cells benefit from an optimised plate design that gives capacities in excess of DIN standard values.

What is a solar res OPzV battery?

Sealed GEL battery, no water topping up requirements through the entire lifetime. Product variants available for both vertical and horizontal placement. Sunlight RES OPzV is a premium battery range, developed for applications requiring regular deep cycle.

What is a PS-OPzV battery?

A wide capacity ranging from 200ah to 3000ah combined with a design life of up to 20 years makes the PS-OPzV series one of the most popular choices for critical utilities and infrastructure applications. We have a wide range of batteries designed to provide reliable performance in critical power applications.

What is a PS-OPzV 2V?

The 2V... The rugged design and use of gel electrolyte makes them safe to use and maintenance free. A wide capacity ranging from 200ah to 3000ah combined with a design life of up to 20 years makes the PS-OPzV series one of the most popular choices for critical utilities and infrastructure applications.

Sunlight RES OPzV is a premium battery range, developed for applications requiring regular deep cycle. It is a maintenance-free energy storage solution that offers significant benefits in terms of cost per cycle, combined with the highest ...
