OPzS Battery Champion Power

What is an OPzS battery?

OPzS batteries are a type of deep-cycle batterycommonly used for backup power systems and renewable energy applications.   Featuring a tubular plate design,deep discharge capability,ventilation,and a variable energy range. OPzS is recommended for use in off grid or renewable situations.

Are OPzS batteries good?

Classic OPzS batteries have proven their worth for decades in challenging installations. They are robust and reliable and provide excellent cycle life. What is Flooded Technology?

What is a powersafe OPzS battery?

PowerSafe OPzS batteries feature tubular plate technologythat offers excellent cycling performance together with a proven long life under float voltage conditions. The pasted negative flat plate design provides the perfect balance for maximum performance across a wide capacity range.

Why should you choose sunlight OPzS batteries?

Sunlight OPzS batteries are characterized by low maintenance requirements,long service life and excellent capacity performancewhile operating at high temperatures or unstable power network,thus providing a premium,efficient and cost effective energy solution.

Are powersafe® OPzS batteries ISO 9001 certified?

Batteries must be installed in accordance with IEC 62485-2 and national/local regulations The management systems governing the manufacture of PowerSafe® OPzS products are ISO 9001,ISO 14001 and ISO 45001 certified 2022 EnerSys. All rights reserved. Trademarks and logos are the property of EnerSys and its affiliates unless otherwise noted.

What are powersafe OPzS cells used for?

The specification of the PowerSafe OPzS cells make it ideal for a wide range of applications such as telecommunications, power generation and distribution, railway, airport and seaport signalling, computing, emergency lighting, automation and measuring systems.
