

OPzS Solar Power Eternity Technologies

What is OPzS solar?

Energy storage optimized for high-power applications The Classic OPzS Solar range has been well proven for decades in medium and large power applications.

What is eternity technologies?

Eternity Technologies vented lead-acid batteries for the renewable energy market. Optimised design results in a low maintenance, reliable energy storage solution for critical and unstable conditions.

Why should you choose Eternity technologies?

Optimised design results in a low maintenance, reliable energy storage solution for critical and unstable conditions. The Eternity Technologies range is built using only the highest quality and most efficient production processes at our state-of-the-art manufacturing centre in the UAE.

OPzS Solar Power Cumple con la norma IEC 60896-11 / IEC 61427 +34 936 632 436

Batteries Plomb-acide à électrolyte libre pour les domaines du solaire et de l'énergie
renouvelable. L'optimisation du design de nos produits permet de proposer des solutions de stockage fiables et
à faible entretien, adaptées aux conditions d'exploitation difficiles.

6OPzS-ET 475 SOLAR (100%) / VPC Cell Type Ue Capacities C10-C240 508 C240 1.85 25°C 488
C120 1.85 25°C Cycles vs DOD of OPzS Solar Power High energy density Robust tubular positive
electrode design, compliant with DIN 40736 Minimal maintenance due to low antimony alloy and large
electrolyte volume Operating temperature -20°C to +55°C

OPzS Solar Power Eternity Technologies

Les batteries plomb acide à valves régulées d'Eternity Technologies (Gel) sont destinées aux marchés du solaire et des énergies renouvelables. Grâce à leur design innovant, la fiabilité des batteries OPzV d'Eternity Technologies est optimale, que ce soit en ce qui concerne son concept "sans entretien" ou sa conception "étanche".
