It is part of Rolls-Royce Holdings, which provides power solutions in various industries, most notably aviation, and is entirely separate from the consumer vehicle brand owned by BMW. Rolls-Royce Power Systems provided its mtu EnergyPack QG battery containers and its energy management system (EMS) platform EnergetIQ for the project.

Indoor Car Storage: Cars--including sedans, SUVs, vans, and even pickup trucks--can easily fit in a 10x20 or a 10x25 indoor storage unit. This makes indoor storage the popular pick for auto storage. Outdoor Car Storage: Outdoor car storage is an affordable alternative for storing your vehicle. These outdoor parking spaces typically range in ...
