

Power Lite Series UZ Energy

What is a Uz power Lite battery?

UZ NEWS: UZ Energy has just launched the brand new Power Lite Series. A safe and scalable LFP battery solution that matches with 48V inverters. In the standard configuration, the compact single unit measures 3U in height. There is also the option of a vertical configuration.

What makes power lite Series a good battery solution?

The flexible and scalable solutions are suitable for a wide range of application scenarios: Power Lite Series is a safe and versatile LFP battery solution. The battery design is compact and allows for multi-parallel configurations (up to 16 units).

What is the difference between power Lite & power Lite Plus?

Power Lite is based on a compact single unit that measures 3U in height in the standard configuration. The design allows for multi-parallel configurations (up to 16 units). Power Lite Plus is a new addition to the series that allows for multi-parallel configurations (up to 8 units).

What is a low-voltage power Lite battery?

Our low-voltage Power Lite Series is a safe and scalable LFP battery solution. Power Lite is based on a compact single unit that measures 3U in height in the standard configuration. The design allows for multi-parallel configurations (up to 16 units).

What is power Lite HV?

Power Lite HV is a safe and flexible solution designed to optimize your energy usage. With a tier-1 LFP battery and IEC/UL certifications, it guarantees excellent safety. Easily customizable from 10 to 30 kWh in a single cluster or up to 300 kWh with multiple clusters, this solution adapts to all your energy needs.

How many power Lite units can be used?

With the in-house developed battery management system (BMS), Power Lite can be used either in a single unit or multiple-parallel configuration up to 16 units (32 units will soon be introduced). This allows the end-user to scale to 80 kWh or even 160 kWh using a very handy cabling connection.

UZ Energy Power lite Lithium battery system is a low-voltage, multi-purpose scalable battery solution. The compact single unit measures 3U in height in the standard configuration. The design allows for multi-parallel configurations (up ...
