

Power Lite Series

What makes power lite Series a good battery solution?

The flexible and scalable solutions are suitable for a wide range of application scenarios: Power Lite Series is a safe and versatile LFP battery solution. The battery design is compact and allows for multi-parallel configurations (up to 16 units).

What is power Lite Plus?

Power Lite Plus is a new addition to the series that allows for multi-parallel configurations (up to 8 units). It features a slim, compact design and is both indoor and outdoor compatible. The flexible and scalable solutions are suitable for a wide range of application scenarios: Power Lite Series is a safe and versatile LFP battery solution.

What is power Lite HV?

Power Lite HV is a safe and flexible solution designed to optimize your energy usage. With a tier-1 LFP battery and IEC/UL certifications, it guarantees excellent safety. Easily customizable from 10 to 30 kWh in a single cluster or up to 300 kWh with multiple clusters, this solution adapts to all your energy needs.

Is power Lite a good battery?

Power Lite complies with global standards and has acquired IEC 62619/IEC 61000/UN 38.3 certificates. Safety standards, reliability, and a long life span are vital issues when it comes to choosing the right battery technology. As are energy density and other factors.

Which inverter brands are compatible with power Lite?

Power Lite is compatible with major inverter brands including Victron, Goodwe, Growatt, with more brands being added to the list in the near future. Power Lite complies with global standards and has acquired IEC 62619/IEC 61000/UN 38.3 certificates.
