

What is a Powerwall battery?

Learn More Powerwall is a compact home battery that stores energy generated by solar or from the grid. You can use this energy to power the devices and appliances in your home day and night, during outages or when you want to go off-grid.

Does Powerwall work if a power outage occurs?

When an outage occurs, Powerwall will help keep your solar system running or, if using grid power, will transition your home to stored energy instantly. With a fully integrated solar inverter, Powerwall can efficiently store solar energy and convert it into electricity to power your home.

How does a Powerwall solar inverter work?

With a fully integrated solar inverter, Powerwall can efficiently store solar energy and convert it into electricity to power your home. This means you can capture more of the solar energy your system is already generating during the day and use energy to power your home for free at night. Time-Based Control mode optimizes your stored energy.

How can I make money with Powerwall?

With some utilities, you can earn money by selling your energy to the grid. Keep your home and all appliances powered during an outage. When severe weather is forecast, Storm Watch will automatically charge Powerwall to its maximum capacity to prepare for an outage.

What is a Powerwall 3 expansion?

Powerwall 3 Expansions make it easier and more affordable to scale up customers' systems to meet their current or future needs. Powerwall 3 is designed for fast and efficient installations, modular system expansion, and simple connection to any electrical service. Values provided for 25°C (77°F), at beginning of life. 3.3 kW charge/discharge power.

What is a Powerwall 3 expansion harness?

13 The Powerwall 3 Expansion harness is a listed component of the UL 9540 certification. The Solar Shutdown Device is a Mid-Circuit Interrupter (MCI) and is integral to the rapid shutdown (RSD) function required for rooftop PV systems in accordance with Article 690 of the NEC.
