

## Pure Sine Inverter GP Series 1000W 230V

Which gp-isw1000 industrial pure sine wave inverter is best?

A solid choice for your mid-range power needs, the Go Power! GP-ISW1000 industrial pure sine wave inverter offers plenty of clean AC power for all your portable electronic equipment. The Go Power! GP-ISW1000 inverter is ideal for handling sensitive loads and for improving AC equipment performance in systems with 12 VDC input.

Which gp-sw1000 inverter is best?

A solid choice for your mid-range power needs, the Go Power! GP-SW1000 pure sine wave inverter offers plenty of clean AC power for all your portable electronic equipment. The Go Power! GP-SW1000 inverter is ideal for handling sensitive loads and for improving AC equipment performance in systems with 12 VDC input.

What is a gp-isw1000 inverter?

The Go Power! GP-ISW1000 inverter is ideal for handling sensitive loads and for improving AC equipment performance in systems with 12 VDC input. Produces an exact replica of AC power for optimal performance. Pair with a compatible solar controller to turn on and off (GP-PWM-30). View our complete line of Industrial Pure Sine Wave inverters.

What is a 1000 watt industrial pure sine wave inverter?

The Go Power! 1000 watt Industrial Pure Sine Wave Inverter is Ideal for medium loads, like electronics or small kitchen appliances.

Which Inverter should I buy?

Ideal for medium loads, like laptops, speakers, or TV's. A solid choice for your mid-range power needs, the Go Power! GP-ISW1000 industrial pure sine wave inverter offers plenty of clean AC power for all your portable electronic equipment. The Go Power!

What is a 1000W modified sine wave inverter with charger?

1000W modified sine wave inverter with charger Genius power is a high-quality 1000W DC 12A Fully Automatic DC to AC Power Inverter with Charger, manufacturer from Taiwan since 1984. Reliable Charging Solutions: Advanced Battery Chargers for Industrial Applications. For automotive applications, our car inverters are second to none.

Output wave form: Modified sine wave. Output power: 1000W (MAX) Output power surge: 1800W. Efficiency: > 90%. No load current < 1A. Low battery alarm: DC 9.5 ± 0.5V. Low battery shutdown: DC 8.5 ± 0.5V. High battery shutdown: ...
