The announcement comes as Qatar Energy is expanding its operations to meet the growing global demand for LNG. The company is currently investing in a number of new projects, including the North Field LNG expansion project, which is expected to increase Qatar's LNG production capacity by 60%.

France-headquartered Technip Energies specialising in engineering and technology for the energy sector, announced significant progress on Qatar's North Field East (NFE) project. The construction of the first train is over 50 per cent complete, and the first systems have been energised, according to the company's first half 2024 results presentation.

QatarEnergy is a state-owned integrated oil and gas company. Its operations covers the entire spectrum of the oil and gas value chain, and include the exploration, drilling, production, storage and transport, refining, marketing and sale of crude oil, natural gas, natural gas liquids, liquefied natural gas (LNG), gas-to-liquids, refined products, petrochemicals and fertilizers.
