Should you buy a solar-powered home?

Buying a solar-powered home can jumpstart your clean energy transition, joining millions of other American households that are powering their lives with sunshine. See more solar energy resources for consumers and learn how solar works.

Which REC Solar panel is right for You?

For those who live in warm-weather environments, the REC Alpha Pure-R solar panel is a great choice thanks to its extraordinarily low temperature coefficient. This means that Alpha Pure-R panels produce more power output than is typical when temperatures rise, unlike many other models that struggle to be as efficient in the heat.

A Homeowner's Guide to Solar Financing: Leases, Loans and PPAs - This guide from the Clean Energy States Alliance helps homeowners navigate the complex landscape of residential solar system financing. It describes three popular ...
