

This article presents a study of optimal control strategies for an energy storage system connected to a network of electrified Rubber Tyre Gantry (RTG) cranes. The study aims to design optimal control strategies for the power flows ...

Stochastic optimal energy management system for RTG cranes network using genetic algorithm and ensemble forecasts ... Energy Storage Systems (ESSs), the focus of this work, can be a significant solution to increase the energy efficiency of the port network system and decreasing environmental concerns.

Energy Storage Systems (ESSs), the focus of this work, can be a significant solution to increase the energy efficiency of the port network system and decreasing environmental concerns. In this paper, the main role of using an energy storage device is to reduce the electric energy bill and RTGs peak demand by optimally shifting peak energy ...

DOI: 10.3390/EN12091771 Corpus ID: 164782588; A Comparative Study of Energy Storage Systems and Active Front Ends for Networks of Two Electrified RTG Cranes @article{Alasali2019ACS, title={A Comparative Study of Energy Storage Systems and Active Front Ends for Networks of Two Electrified RTG Cranes}, author={Feras Alasali and Antonio ...

REGEN system connections to the DC bus of the Hoist Motor Drive Figure 4 illustrates a simplified RTG crane system diagram with the VYCON REGEN system. Figure 4 RTG Crane Diagram with the VYCON REGEN System The flywheel consists of a 3-phase permanent magnet synchronous motor -generator connected to a 3phase inverter.

Update the prediction demand scenarios model and storage control policy to take in account new observation at time point  $n + 1$ : 5: Repeat the above steps from 2 with  $n = n + 1$ , stop when  $n = N$ : Finally, as discussed in this section through Eqs. ... 2 The energy storage system and RTG cranes demand model, ...

Therefore, in proposed system unique features of demand profile, operating environment, system redundancy, backup operation, readily available spare parts and specific features of state machine controller are considered for the sizing ...
