

SIB-100 150 200 250AH-12-GE Series Veichi Electric

Who is veichi electric?

VEICHI Electric (stock code: 688698) has always been dedicated to the field of electrical drive and industrial control since its establishment, and now it is a high-tech enterprise engaged in R&D, production, and sales of industrial automation products in one.

What is a SIV series inverter?

The SIV series has a high protection class and can be mounted on PV panel supports. The cost of the SIV series inverters and the pumps is approximately the same as the price of a conventional inverter. When the water level is higher than the high level sensor, it enters the water full protection.

Where is veichi based?

With R&D and production bases in Suzhou, Shenzhen and Xi'an, and a wholly-owned subsidiary in India, VEICHI now is capable of conducting its business to many countries and regions with competitive, safe and reliable products and services to customers all over the world.

What is veichi & how is it transforming the industry?

In the meanwhile, along the development trend of the times, VEICHI is extending its place to the emerging fields such as robotics, new energy, and medical care, and has developed products such as coreless motors, frameless motors, photovoltaic AC drives, and surgical power systems, which have deeply empowered the impressively promising industries.
