

# SLA Replacement Battery ELB Energy

Who is Elb Energy Group?

ELB Energy Group is a best lithium batteries company in China & Mexico, who specialized in manufacturing customized lithium batteries for all kinds of application.

What are Elb lithium solutions?

ELB Lithium Solutions include BMS controlled environmentally safe motive power and stationary options for extreme temperature operation, up to 98% in round trip charge efficiency (RTE), 30% in weight savings and 10x the cyclic design life of high-quality option. ELB uses the best cells so your battery lasts longer and performs better.

What can we do with a full range of batteries?

By utilizing the industrial cutting-edge design and manufacturing technologies and equipment, we are able to manage a full range of battery form cells, battery pack, lead acid replacement, 48V base station battery module, residential energy storage system, micro business energy storage system etc.

What can Elb do for You?

ELB offer an extensive range of battery sizes and configurations that support various applications. For those applications that require unique power requirements our expert engineers can help design, develop, test and manufacture custom battery solutions for the specific needs of almost any application.

What certifications does Elb have?

Products in strict accordance with international standards for production, We ELB already obtained ISO9001, ISO18001, CE, CB, RoHS, BIS, UL, KC, UN38.3 certification etc.
