

What is Sofar 1.1K 3.3ktl-g3?

The SOFAR 1.1K...3.3KTL-G3 is a polished compact and lightweight solar inverter for the smallest single-phase PV systems. With an efficiency of up to 97.7%, it maximizes the energy yield of your PV system. The integrated zero-export function enables the user to limit the grid feed-in power by just adding a current transformer to the system.

What is the input mode of Sofar 1.1K 3.3ktl-g3?

Set Input mode The input modes of the SOFAR inverter are divided into parallel mode and independent mode (when multi-channel MPPT is input). Since SOFAR 1.1k ~ 3.3KTL-G3 has only one group of MPPT input, the input modes are not distinguished.

Is Shenzhen sofarsolar responsible for incorrect country code selection?

Shenzhen SOFARSOLAR Co., Ltd. is not responsible for any consequences arising out of incorrect country code selection. If the inverter indicates any fault, please refer to Section 7.1 of this manual ---- trouble shooting for help.

Does Shenzhen sofarsolar take responsibility for property destruction and personal injury?

Shenzhen SOFARSOLAR Co., Ltd. does not take any responsibility for the property destruction and personal injury because of any incorrect use. Please install inverter according to the following section.
