

SPT Series Sunstone Power

What is a SPT battery?

Designed and developed by Sunstone, the SPT series is a type of VRLA battery. Inside the robust metal case there are 15 pieces of 3.2V LiFePO₄ cells with high energy density and a BMS that takes over the monitoring and protection functions. The stable, safe and reliable battery pack is suitable for solar systems and UPS. Max. Discharge Current

Who is Sunstone power industry?

Sunstone Power Industry Co., Ltd was established in 2003. So far we have more than 17 years of history of production, marketing batteries for UPS, Solar system and Telecom application worldwide. We started as a Lead Acid Battery manufacturer and from 2018 we entered into LiFePO₄ battery production and also developed the BMS system by ourselves.

What are the features of Sunstone power batteries?

Sunstone Power supplies 12AH 12V lead-acid AGM batteries and they have the following features: (1) 5 years lifetime; (2) Low self-discharge.

What is Sunstone OPG battery?

Sunstone OPG series is OpzV standard battery. It is Valve Regulated Lead Acid battery that adopts immobilized GEL and Tubular Plate technology to offer high reliability and performance. The Battery is designed and manufactured according to DIN standards and with die-casting positive grid and patent formula of active material.

What is Sunstone VG series battery?

SunStone Vanguard (VG) series battery is specially designed for telecommunication applications. The outstanding advantage of VG series battery is that the width of the battery is narrow and the two terminal batteries are in the front. It is very convenient for connecting bus-bar and inspect after the batteries are installed in the rack.

Designed and developed by Sunstone, the SPT series is a type of VRLA battery. Inside the robust metal case there are 15 pieces of 3.2V LiFePO₄ cells with high energy density and a BMS that takes over the monitoring and protection ...
