

## STR 51 2V Rack Battery Sacolar

How many kW can a 51.2 V 100 Ah battery run?

AOLithium 51.2 V 100 Ah batteries >5 kW? In the AOLithium manual for their big 51.2v 100ah server rack battery,they say to limit discharge power to 5 kW (6kW for up to one hour),when using 2 - 4 batteries.

How do I use a server rack battery?

It's just like every other server rack battery then. Just run them in parallel to a common bus bar,then to your inverter. In the AOLithium manual for their big 51.2v 100ah server rack battery,they say to limit discharge power to 5 kW (6kW for up to one hour),when using 2 - 4 batteries.

How many kW can a server rack battery charge?

In the AOLithium manual for their big 51.2v 100ah server rack battery,they say to limit discharge power to 5 kW(6kW for up to one hour),when using 2 - 4 batteries. I assume this is due to their passthrough connection not supporting more than 100 A,but the 15 kW inverter I plan to use has a maximum discharge current of 275 A.
