Pitched Roof;

Discover the pinnacle of efficiency with the STR_IR_U60, a composite aluminum roof mounting system designed for industrial and commercial solar projects. With a minimal clearance of 60 mm and an aerodynamic build, this system combines strength and durability to ensure long-lasting performance. Elevate your solar energy installation with the reliability of the STR_IR_U60.

The STR_CP_3P, an innovative south-facing carport system expertly engineered from a robust combination of composite aluminum and steel. Crafted for peak performance, this lightweight mounting solution features a compact design with a minimum clearance of 2500 mm, ensuring ample space for highly efficient solar energy generation.

Stolar Mounting Systems Solar Mounting System Series Carport_3P. Detailed profile including pictures, certification details and manufacturer PDF ... Angels Solar Flat Roof; STR_EBS Solar... Stolar Mounting Systems Solar Montagesystem Serie Carport_4P. Ausfürliches Profil mit Bilder, Zertifizierung und PDF von Hersteller ... Hinweis: Ihre Anfrage wird direkt an Stolar Mounting Systems gesendet. Alternativprodukt NOVA Ballast S... Hopergy Typ: Flachdach Produktgarantie: 15 Jahre Neigungswinkel: 0-10 °

Discover the robust and aerodynamic STR_IR_TPFH70 mounting system designed for industrial and commercial pitched roofs. With a minimum clearance of 70 mm, this composite aluminum and steel solution ensures optimal space utilization and ...

Discover the efficiency of the STR_IR SLFG, a cutting-edge Aluminum and Steel mounting system tailored for industrial and commercial sheet roof projects. With a minimal clearance of 55 mm, its aerodynamic design and proven on-field ruggedness make it the ideal choice for durable and reliable solar installations. Elevate your energy solutions with this compact and lightweight ...
