

# Sigen Hybrid 5-25 kW Three Phase

What is a SIGEN hybrid inverter?

Boasting up to 4 MPP trackers for optimal energy harvesting and a robust Max 16A MPPT current, Sigen Hybrid Inverter ensures complete coverage of all PV panels in a roof scenario. With a DC/AC ratio of up to 2, it achieves superior efficiency, maximizing power yield for a more sustainable energy solution. Peace of mind in use.

Can I add a battery to my SIGEN hybrid inverter?

Add battery anytime. Packed with safety features, Sigen Hybrid Inverter allows you to add Sigen Battery easily down the track when you're ready to expand your solar system to include energy storage for optimized home energy experience. Upgrade anytime.

Which grid supply methods are supported by SIGEN PV Max or SIGEN hybrid?

The grid supply methods supported by Sigen PV Max or Sigen Hybrid include TN-S, TN-C, TN-C-S, TT and IT systems on residential rooftops. The grid-connected system consists of photovoltaic strings, inverters, distribution panels, and other components. Sigen PV Max or Sigen Hybrid supports a maximum of 5 units in cascade connection.

Does sigenergy support type II DC/AC surge protection & anti-islanding protection?

Type II DC/AC surge protection, Anti-islanding protection This is an optional feature only supported in certain models, please contact Sigenergy for more information. 2. nergy website. Disclaimer: The information in this file is provided on an "as is" basis.

What types of protection does sigenergy offer?

DC reverse polarity protection, Insulation monitoring, Residual current monitoring, Arc fault circuit interrupter 1, AC overcurrent/overvoltage/short-circuit protection. Type II DC/AC surge protection, Anti-islanding protection This is an optional feature only supported in certain models, please contact Sigenergy for more information.

What is a three-phase string-type PV Grid-connected inverter?

Three-phase string-type PV grid-connected inverters are designed to convert the DC electricity generated by PV strings into AC electricity for Home loads or feeding into the grid. The LED strip light interface and ON/OFF button are unavailable for this product, and the decorative covers are non-configurable.
