

Single-phase hybrid inverter R3 6KL1 Megarevo

What voltage does a megarevo 3KW 6kW hybrid inverter use?

The Megarevo 3KW-6kW single-phase hybrid inverter operates within an acceptable input voltage range of 125~500VAC. It has passed IEC/EN62109-1/-2, IEC/EN62477-1, South Africa NRS097-2-1:2017, IEC/EN 61000-6-1, IEC/EN 61000-6-3 test certification and supports multi-parallel connection.

What is a hybrid inverter?

A hybrid inverter, such as the Megarevo 3kW-6kW single-phase model, allows for parallel connection of multiple machines and is suitable for various home energy storage applications. Equipped with an advanced built-in MPPT charge controller, it operates within an acceptable input voltage range of 125~500VAC.

Which hybrid inverter is compatible with multiple power sources?

The MEGAREVO L1 Series 3-6kW low-voltage hybrid inverter, including the 5kW hybrid inverter, offers extensive compatibility with multiple power sources. It supports the simultaneous input of PV, batteries, diesel generators, power grids, and loads.

Shenzhen Megarevo Technology Co., Ltd. Single-phase hybrid inverter R3~6KL1.
