

South africa green energy storage project bidding

Who is a preferred bidder for the Mogobe (Ferrum) battery energy storage project?

Oslo, 30 November 2023: Scatec ASA has been awarded preferred bidder status for the Mogobe (Ferrum) battery energy storage project totalling 103 MW/412 MWh under the first bid window of the Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) in South Africa, by the Department of Mineral Resources and Energy.

Where are dispatchable energy & grid infrastructure located in South Africa?

The project is located near Kathu, Northern Cape, close to high power demand centres. "We are showing and supporting that dispatchable energy and grid infrastructure are cornerstones to the sustainability of South Africa's current and future energy system.

How much does Scatec's battery energy storage project cost?

The estimated total capex for the battery energy storage project is ZAR 3.1 billion (USD 163 million) of which Scatec's EPC contracts account for approximately 83%. The project will be financed by ZAR 2.6 billion (USD 138 million) of non-recourse project debt and the remaining by equity from the owners.

Are dispatchable energy and grid infrastructure sustainable?

"Once again, we have shown that dispatchable energy and grid infrastructure are cornerstones to the sustainability of South Africa's current and future energy system," adds Jan Fourie, EVP Sub-Saharan Africa, Scatec. The request for proposal was issued on 7 March 2023, and bid submission on 2 August 2023.

A separate solar and storage project Scatec is building in South Africa, awarded to the firm through another procurement. Image: Scatec. Norway-based IPP Scatec has won preferred bidder status for a 103MW/412MWh battery energy storage system (BESS) project in South Africa, part of a 513MW tender.

South Africa is advancing in battery energy storage to support renewable energy integration. ... the BESIPPPP is designed to address these challenges and create a market for battery storage in South Africa. The program follows a competitive bidding process, similar to the REIPPPP, and offers long-term power purchase agreements (PPAs) to the ...

2 · The commitment to battery storage solutions is becoming increasingly significant as South Africa faces ongoing energy challenges and seeks to augment the integration of renewable power sources. The estimated cost of ...

The Department of Mineral Resources and Energy (DMRE) invites bids under the Second Bid Window of the Battery Energy Storage Independent Power Producers Procurement Programme for 615MW (2,460MWh) battery energy storage capacity and ancillary services in line with the power system requirements as set out by
