

Spiral Pile Ground Mounting System

What is screw pole mount system?

Screw pole mount system is applied in fixation of solar panel. It is fit for outdoor as the spiral pile mounting system adopts special materials that can resist corrosion, like HDG (hot dip galvanizing) and anodized silver 15mm, screw pole mount system is adaptable for different soils. Additionally, it is easy to install.

Are ground screw foundations better than a pile driven system?

One of the significant strengths of our ground screw foundations over a traditional pile driven system is the significant increase in wind uplift capacity provided. The continuous helix of each ground screw provides greater friction in the soil than a traditional driven pile.

How many ground-mounted solar panels are available?

We offer three ground-mounted solar panel systems, for commercial and domestic use. The RADIX SolarMount Racking System is designed for all types of ground conditions, and is easily adapted to problematic ground. This system has been expertly designed to offer durability and adaptability and comes with a 25-YEAR WARRANTY.

What are ground-mounted solar panels?

Ground-mounted panels offer easier maintenance, optimal orientation for maximum sun exposure, no roof penetration risks, and are suitable for properties with unsuitable roofs. They can be used for private residences, farms, businesses and are more commonly used in solar farms or solar parks.

How long does it take to install a screw pole mount system?

Generally speaking, it just takes one day to install one screw pole mount system with 100-200 ground screws.

2. Large-scale application scope The screw pole mount system is suitable for different soils, like soft soil, bed rock, swamp and slope with more than 30°;..

Why are ground-mounted systems more expensive?

Ground-mounted systems are generally more expensive due to additional framing and mounting requirements, but they can offer higher efficiency and easier maintenance. Supporting a net-zero future on the right foundations.
