

Sun Power VR L OPzV Series Hoppecke

What is Hoppecke Sun & Power V L?

The HOPPECKE sun |power V L is a low- maintenance, vented lead-acid battery, which is perfectly preserved for cyclical use. The valve-regulated lead-acid batteries of the sun |power VR L series are specially designed for high energy throughputs. This is achieved by the proven design of tubular plates and an electrolyte fixed in gel.

What makes the Sun & Power VR L series special?

The valve-regulated lead-acid batteries of the sun |power VR L series are specially designed for high energy throughputs. This is achieved by the proven design of tubular plates and an electrolyte fixed in gel.

What is Parker Solar Probe & Solar Orbiter?

Parker Solar Probe is poised to make the closest approach to the sun attempted by a spacecraft in late December, while Solar Orbiter is tasked with taking the closest-ever images of the sun's surface.
