

What is SMA Sunny Highpower peak3?

Additional monitoring systems can access all devices via the open Modbus /TCP interface. SMA Sunny Highpower PEAK3 stands for pure power. With its compact design, the inverter offers the highest power density per device. The advantages: optimal performance at a light weight. The result is cheaper transportation and easier installation.

What is Sunny Highpower peak3?

Additional monitoring systems can access all devices via the open Modbus /TCP interface. Sunny Highpower PEAK3 stands for pure power. With its compact design, the inverter offers the highest power density per device. The advantages: optimal performance at a light weight. The result is cheaper transportation and easier installation.

What is SMA peak3?

More than 20 years of utility experience have gone into the development of the PEAK3, which is SMA's latest addition to a comprehensive portfolio of utility solutions. This 1,500 VDC inverter offers high power density in a modular architecture that achieves a cost-optimized system for utility-scale PV integrators.

Why should you choose Sunny Highpower peak3 inverter?

The Sunny Highpower Peak3 inverter offers maximum power density at minimum weight. The DC combiner boxes enable efficient planning and easy expansion of large-scale solar plants even on irregular terrain. Field-proven OptiCool active cooling technology ensures reliable, long-term operation.

What is a peak3 inverter?

PEAK3 stands for pure power. With its compact design, the inverter offers maximum power density at minimum weight. This results in less expensive transportation and simplified installation. In combination with the project-specific DC Combiner Boxes, the PV array can be oversized up to 200 %.

What is peak3 - the solution to utility PV's greatest challenges?

PEAK3 - The solution to utility PV's greatest challenges. Thanks to an intelligent system structure, all inverters and the Data Manager are installed centrally. The DC Combiner Boxes are distributed in the field. The result: maximum performance, cost-optimized cabling and improved installation and maintenance.
