

# Tongwei business park deploys energy storage

Recently, Tongwei and Saudi Arabia's International Company for Water and Power Projects (ACWA POWER) made significant progress in energy cooperation by officially signing a supply agreement for the fourth phase of the MUWAYH photovoltaic (PV) project under Saudi Arabia's Public Investment Fund (PIF).

**Reduced Energy Costs** It can reduce energy costs for local consumers. For example, a local solar project in Lapeer, Michigan generates 15.8 megawatts of power, which is enough energy to annually power more than 11,000 homes and leads to an average annual reduction in energy bills of about 20% for affiliated households.

On June 13, during the SNEC 2024, Tongwei Co., Ltd. (Tongwei) and ACWA POWER successfully held a strategic signing ceremony. Those who attended and witnessed the ceremony included Liu Shuqi, Chairwoman and CEO of Tongwei, Bart Boesmans, Chief Technology Officer of ACWA POWER, Fazle Moyeen Quazi, Executive Vice President of ...

On 4th of July 2024, the Zonnepark-Dorst, a ground-mounted PV Power plant, supplied by Tongwei, was completed in the Netherlands. This marks the first N-type 210mm large-format module project built in Europe, all powered by Tongwei TNC-G12 66 modules.

**Enhanced Energy Storage.** ... In the case of a solar park in Colorado, its energy output increased by 25% during the wintertime, exclusively due to the snow on the ground reflecting the light and increasing the efficiency of the panels. ...
