

US AGM 12V150 U S Battery

What are universal 12 volt AGM batteries?

Universal Power Group's 12 volt AGM batteries are manufactured under the most stringent quality control battery standards. They are non-spillable by DOT (Department of Transportation), ICAO (International Commercial Airline Organization), and IATA (International Airline Transportation Association) definitions.

How much does a deep cycle AGM battery weigh?

Weight: 93 lbs (42.2kg) Proof, Deep Cycle 12-volt batteries are needed. All of U.S. Battery's Deep Cycle AGM Batteries feature the latest and most advanced paste and plate making technologies available. Our Premium Deep Cycle AGM Batteries are Sealed and Maintenance Free. They will not leak, and can withstand most freezing temperatures.

What is the voltage of a 12V AGM battery?

12V AGM Deep Cycle Battery Voltage Chart (1st Chart). The 12V AGM battery state of charge voltage ranges from 13.00V (100% capacity) to 10.50V (0% capacity). If you, for example, measure the 12.30V voltage on your 12V AGM battery, you can figure out (with the help of the 1st chart) that this 12V AGM battery still has 70% capacity.

Where are AGM deep cycle batteries made?

Our AGM Deep Cycle batteries are developed in the U.S.A. and specifically manufactured for U.S. Battery under our guidelines assuring our customers they are being provided the highest quality AGM batteries available. Positive active material designed to maintain structure during deep cycling.

Do deep cycle AGM batteries leak?

Our Premium Deep Cycle AGM Batteries are Sealed and Maintenance Free. They will not leak, and can withstand most freezing temperatures. U.S. Battery's Deep Cycle AGM products offer several advantages over both conventional flooded and GEL lead acid battery types.

Can AGM batteries be used in a sealed container?

Hydrogen gas emission is minimal, allowing U.S. Battery's AGM products to be used in areas with enclosed spaces (but not in sealed or gas-tight containers). All of our sealed AGM batteries are specifically manufactured for U.S. Battery under our guidelines assuring our customers they are being provided the highest quality AGM batteries available.

US AGM 12V240 Terminal Options: Standard: DT-3/8. ... All of U.S. Battery's AGM products have very low self discharge rates allowing our batteries to be stored for longer periods of time without the need to boost charge as often. ...
