

The additional lost power goes into a small micropower circuit which is needed for the UPS to “remember” if it is supposed to restart automatically when the AC power is restored. If a Matrix-UPS is to be stored in this condition (i.e. off) for a long period of time, it is recommended that the batteries be detached from the Matrix-UPS ...

Commercial UPS systems are generally less durable than industrial UPS systems but are much lighter, easier to install and maintain, and are more affordable than industrial UPS power supply systems. One of the most important considerations to make when choosing a UPS is the physical conditions it will withstand.

Order Status, Communications, and Follow-Ups For instructions related to creating and following up with order status tickets, read the articles found here. How can I create an Order Status ticket that will help me track the status of my PE#174; order? Where can I view my list of orders for which I already requested an Order Status ticket?

Back-up storage systems ensure a continuous power supply to your facility, even when the main power grid is unavailable. These lithium battery power storage systems guarantee supply by using stored power, enabling a controlled shutdown of applications or supporting secure switching between the power grid and the backup storage supply.

Our local stores do not honor online pricing. Prices and availability of products and services are subject to change without notice. Errors will be corrected where discovered, and Lowe's reserves the right to revoke any stated offer and to correct any errors, inaccuracies or omissions including after an order has been submitted.
