

VisFlow 8kW VisBlue

Is VisBlue scalable?

Yes, our battery solution is scalable and can be tailored to fit the needs of the customer. This is possible, as we can both design and arrange the desired number of VisBlue units to meet the energy requirements of the customer.

Is VisBlue a 'call for Innovation - Design the sustainable future of manufacturing'?

VisBlue has been selected as winner in the "Call for Innovation - Design the Sustainable Future of Manufacturing" by Philip Morris International in the category "Clean Energy and Environmental Impact Reduction". Read more here VisBlue.com gets a major upgrade!

Why should you use VisBlue's battery solution for storing green power?

Check out our products. You get plenty of advantages when you use VisBlue's battery solution for storing your green power. The technology offers a safe and more environmentally friendly battery solution that makes it possible to store more of the energy produced by the solar cells.

Is VisBlue a custom battery solution?

The VisBlue Battery Solution is custom made for the specific customer at hand, so as it meets whatever energy requirements the customer may have. Please, feel free to contact us to see if we can tailor a solution that fits exactly your needs. Write to us at sales@visblue.com Is a battery solution from VisBlue recyclable?

Are VisBlue batteries reusable?

The core of a VisBlue Battery Solution consists of the following major components: an electrolyte stack and two tanks, which are made of conventional plastic, and these are either recyclable or reusable. Furthermore, two metal plates hold the stack together, and these are also recyclable.
