Sichuan Zhongguang Lightning Protection Technologies Co., Ltd. Website: Page 1 of 5. ZGGS20-670PV1 Modular Power Supply SPD ... The storage temperature is -40?~85?, and relative humidity 85% or less. Good ventilation, dry ground and

Number of times of SPD action storage: 1~999: SPD action time: xx-xx-xxxx, 00: 00: 00: Communication mode: ... thus ensuring the effectiveness of lightning protection. At the same time, the anti-interference design is adopted, and the immunity of the monitoring unit meets the requirements of GB/T17626. ... Website: E-mail ...

It includes the intelligent SPD lightning monitoring module and monitoring server software, which can detect the SPD alarm action and its time, number of lightning strikes, lightning strike amplitude, and SPD life warning in real time and accurately, and the real-time data information monitored by the module is transmitted to the monitoring ...

The two-class protection is adopted, with the first class to shunt the current and the second to clamp the voltage. Once the transmission line is struck by lightning strokes and surges, the SPD will shunt the lightning and surge current to the ground, clamping it to an acceptable range of equipment, which protects the equipment.
